INTRODUCING THE DOMETIC DRAWBAR

TAILORED TO YOUR TASTE

Re-creating the feeling of a perfect evening out in the comfort of your own kitchen means getting the details right. Like un-corking a good wine and serving it at the optimal temperature, at just the right moment. The Dometic DrawBar blends elegantly into your kitchen and adds a unique finishing touch to your home. It's an enticing detail that elevates every glass and turns it into a memorable experience.

KEY FEATURES

A PERFECT WINE EXPERIENCE

For optimal serving temperature, select one of five pre-set options, professionally tailored for different types of wine: 5, 8, 11, 14 or 17 °C.

COMPACT WINE STORAGE

The Dometic DrawBar is always close at hand and fits up to five bottles, from long Riesling to large Champagne.

CONTROLLED STORING ENVIRONMENT

Powerful and efficient compressor cooling technology with electronic controls. Humidity-control tray further improves the storing environment.

DESIGNED TO STAND OUT

Soft illumination elegantly showcases your wine bottles and adds a touch of luxury to your kitchen.

PERFECT FIT

The Dometic DrawBar fits standard 60 cm wide cabinets. Glass or custom front panels ensure a refined and coordinated finish to your kitchen design.

BUILT-IN LARGE CAPACITY WINE COOLERS

OPTIMAL STORAGE ENVIRONMENT

For wine to unfold its full bouquet and flavor, both the storage conditions and the serving temperature must be right. Dometic wine coolers ensure the optimal environment for unlocking the wine’s full flavors and character. The temperature is accurately controlled thanks to electronic regulation and a constant humidity level is maintained between 50–70% ensuring the corks don’t dry or mold. A fan circulates the air inside the wine cooler while the integrated carbon filter eliminates any potential odors. The “low emission” treatment of the triple-glazed doors on Dometic wine coolers stops ultraviolet rays that can damage and change the character of the wine.

FREE-STANDING WINE COOLERS

PRECISE AND STYLISH STORAGE FOR YOUR WINE

As well as excellent wine storage, a Dometic free-standing wine cooler is an attractive addition to any home. It has a classic design, with stainless steel accents and a recessed handle on the side of the door. The 3-layer glass door protects wine from damaging ultra-violet light. It stores up to 75 bottles of wine at the perfect drinking temperature (5–22°C). Coated racks safely hold each wine bottle. Its well-engineered heating and cooling technology ensure your chosen temperature is quickly achieved and reliably maintained, while an effective air circulation system creates a perfect climate for ageing your wine to unfold its bouquet and flavor.

KEY FEATURES

STORE AND AGE WINE

Provide the perfect climatic conditions for wine storage and ageing.

COATED WINE RACKS

Six coated racks are shaped to securely cradle each wine bottle.

SINGLE TEMPERATURE ZONE

Single-zone wine cooler stores wines at temperatures between 5 °C and 22 °C.

SLEEK DESIGN

Control settings are conveniently and neatly integrated into the door.

UV PROTECTION

Triple pane glass door protects wine from damaging ultra-violet light.

SOFT ILLUMINATION

White LED light softly illuminates the black interior and showcases the bottles inside.
